

## Foghorn Therapeutics to Participate at the William Blair Biotech Focus Conference 2021

July 9, 2021

CAMBRIDGE, Mass., July 09, 2021 (GLOBE NEWSWIRE) -- Foghorn Therapeutics Inc. (Nasdaq: FHTX), a company pioneering the discovery and development of a new class of medicines targeting genetically determined dependencies within the chromatin regulatory system, today announced that Adrian Gottschalk, President & Chief Executive Officer, is scheduled to participate in a panel at the William Blair Biotech Focus Conference 2021, which is being held virtually from July 14-15.

### Panel Details:

**Title:** Next Generation Small Molecules in Oncology

**Panel date and time:** Thursday, July 15, 9:00 a.m. ET

A live webcast of the panel can be accessed under "Events & Presentations" in the Investors section of the Company's website, [www.foghornrx.com](http://www.foghornrx.com).

### About Foghorn Therapeutics

Foghorn® Therapeutics is discovering and developing a novel class of medicines targeting genetically determined dependencies within the chromatin regulatory system. Through its proprietary scalable Gene Traffic Control® platform, Foghorn is systematically studying, identifying and validating potential drug targets within the chromatin regulatory system. The company is developing multiple product candidates in oncology.
