

Foghorn Therapeutics to Present at Upcoming Conferences Including New Preclinical Data from EP300 and CBP Selective Degradation Programs

October 24, 2023

CAMBRIDGE, Mass., Oct. 24, 2023 (GLOBE NEWSWIRE) -- Foghorn[®] Therapeutics Inc. (Nasdaq: FHTX), a clinical-stage biotechnology company pioneering a new class of medicines that treat serious diseases by correcting abnormal gene expression, today announced that the Company will present new data from multiple preclinical and clinical programs at the 6th Annual Targeted Protein Degradation (TPD) Summit and the Connective Tissue Oncology Society (CTOS) Annual Meeting. The TPD Summit will be held October 30–November 2 in Boston, Massachusetts, and CTOS will be held November 1–4 in Dublin, Ireland.

6th Annual Targeted Protein Degradation Summit

Foghorn will participate in multiple sessions, including a keynote presentation by Steve Bellon, Foghorn's Chief Scientific Officer, where data from its selective EP300 and CBP degrader programs will be presented. Danette Daniels, Foghorn's Vice President, Protein Degradation Platform, will provide the conference's opening remarks as the Chair.

Presentation Details

Title: Advancement of Degradation Targeting Key Chromatin Regulators Involved in Disease/Oncology

Presenter: Steve Bellon, Chief Scientific Officer, Foghorn Therapeutics

Session: Keynote Plenary Session

Date: October 31, 2023

Time: 9:30 a.m. ET

Title: Lay of the Land – What Does the Next 3 Years of TPD Drug Discovery & Development Look Like?

Presenter: Laura La Bonte, Senior Director, Biology & Research Portfolio Strategy, Foghorn Therapeutics

Session: Clinical Development

Date: October 31, 2023

Time: 2:30 p.m. ET

Connective Tissue Oncology Society Annual Meeting

Presentation Details

Title: Preliminary results from a Phase 1 study of FHD-609, a bromodomain-containing protein 9 degrader, in patients with advanced synovial sarcoma or SMARCB1-loss tumors

Presenter: J. Andrew Livingston, M.D., M.S., MD Anderson Cancer Center

Session: Session 4, Paper 25

Session date and time: November 2, 2023, 16:00-17:30 WET

Title: Pharmacodynamic and mechanistic impacts of FHD-609, A BRD9 degrader, in a Phase 1 study in patients with advanced synovial sarcoma or SMARCB1-loss tumors

Session date and time: November 2, 2023, 17:30-18:30 WET

Presenter: Mike Collins, Senior Scientist, Foghorn Therapeutics

About Foghorn Therapeutics

Foghorn[®] Therapeutics is discovering and developing a novel class of medicines targeting genetically determined dependencies within the chromatin regulatory system. Through its proprietary scalable Gene Traffic Control[®] platform, Foghorn is systematically studying, identifying and validating potential drug targets within the chromatin regulatory system. The Company is developing multiple product candidates in oncology. Visit our website at www.foghornrx.com for more information on the Company, and follow us on [X](#) (formerly Twitter) and [LinkedIn](#).

Forward-Looking Statements

This press release contains "forward-looking statements." Forward-looking statements include statements regarding the Company's clinical trials, product candidates and research efforts and other statements identified by words such as "could," "may," "might," "will," "likely," "anticipates," "intends," "plans," "seeks," "believes," "estimates," "expects," "continues," "projects" and similar references to future periods. Forward-looking statements are based on our current expectations and assumptions regarding capital market conditions, our business, the economy and other future conditions. Because forward-looking statements relate to the future, by their nature, they are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict. As a result, actual results may differ materially from those contemplated by the forward-looking statements. Important factors that could cause actual results to differ materially from those in the forward-looking statements include regional, national or global political, economic, business, competitive, market and regulatory conditions, including risks relating to our clinical trials and other factors set forth under the heading "Risk Factors" in the Company's Annual Report on Form 10-K for the year ended December 31, 2022, as filed with the Securities and Exchange Commission. Any forward-looking statement made in this press release speaks only as of the date on which it is made.
